1. THE STORY OF "THE MAGIC OF SCHEHERAZADE"

● AGES AGO, THE GREAT DEMON GORAGORA TURNED THE BEAUTIFUL WORLD OF ARABIA INTO A HOME FOR DEMONS.

One day, the legendary magician Isfa, using the power of the blue star of Airosche, defeated Goragora and sealed the demons underground. Peace returned to Arabia for a short time.

But once again, Arabia is in danger. To carry out his evil plans, the magician Sabaron has released the demons from their underground prison.

You've heard that there is a young magician, a descendent of Isfa, who has the power to defeat Sabaron. Do you remember? You are that magician. You must defeat Sabaron, but how? Your magical powers are gone, your memories have been erased, and your sweetheart, the princess Scheherazade, has been imprisoned. Even worse, you've been thrown into a different time.

With the help of the Time Spirit Coronya, you must journey through the Time Door to defeat Sabaron and rescue Scheherazade. During your journey, you will meet allies who will help you to regain your magical powers.

This is where your journey begins.

I'M CORONYA, THE TIME SPIRIT. I WAS SEARCHING FOR YOU. ONLY YOU CAN BEAT SABARON. HELP US!
YES
NO

● "THE MAGIC OF SCHEHERAZADE" STORY CONSISTS OF FIVE CHAPTERS.

In the first four chapters, you must journey through different worlds to find a palace where a demon awaits you. In the final chapter you must defeat the evil Sabaron to bring peace back to Arabia.

As you travel through time to the past and the future, be sure to fight many enemies and look for allies. Fighting enemies will raise your ability levels and increase your strength. Allies will help you on your journey to battle the evil Sabaron and to rescue your sweetheart, Scheherazade.

- Chapter 1: The Water World, Mooroon
The first world you visit is controlled by a water demon. What awaits you at the bottom of the "moving lake"?
- Chapter 2: The Desert World, Alalart
The people of this world are being terrorized by the fearsome demon, Curly. Only by traveling back and forth through time will you be able to pass the Maze Desert and continue on your quest.
- Chapter 3: The Winter World, Samalkand
Troll, the winter demon, will soon rule this world. You must defeat Troll to bring back the warmth of spring.
- Chapter 4: The Flower World, Celestern
Salamander, the strongest demon known, has yet to be defeated. He is waiting for you. How will you defeat him?
- Chapter 5
What will you find during the last part of your journey? What is the final mystery? You must find out on your own.

2. LET'S START THE GAME!

Insert "The Magic of Scheherazade" game pak into your NES control deck and turn on the power. You will see the title screen appear. Use the SELECT button to choose "START" (to play from the beginning) or "CONTINUE" (to continue a previous game). Use the control pad to choose "SLOW", "NORMAL" or "FAST" text speed.

Next, press the START button. Enter your name or password by moving the cursor with the control pad and pressing the A button to select a letter. Your name may be up to four letters long. Press the START button to enter your name or password.

● CHOOSE YOUR CLASS

Before you set out on your journey, you must first choose your class. Select the desired class with the control pad, then press START to begin the game.

Some shopkeepers will offer discounts to characters of certain classes. When shopping, try all three classes, and be sure to look for the best deals. Also, certain allies won't join you unless your character is the right class. During the game, you may change your class at a mosque.

● FEATURES OF EACH CLASS:

- Fighter — The fighter is good at handling a sword. In his hands, a short sword is as effective as one twice as long. He can also reflect the enemy's bullets.
- Saint — The saint's offense isn't very good, but once he obtains a shield he can reflect the enemy's bullets from the front. If he has a special item, he can cross damage zones without getting hurt.
- Magician — His favored weapon is the rod. When he obtains more powerful rods, his attack ability will be greater than the other classes. He's also the strongest when fighting the boss demons.

Each class has special abilities and can master various different items.

● HOW TO CONTINUE AND USE THE PASSWORD

If you wish to stop playing in the middle of a game, go to a mosque or be defeated to get a password. The next time you play, select CONTINUE from the title screen.

Enter the password and press START to continue the last game. The password will return you to the town at the beginning of the chapter you were in when you last played.

● IF THE PASSWORD IS WRONG ...

If you enter the wrong password, you won't be able to continue your last game. Make sure that your password is correct.

You will be given three chances to enter your password. If you enter the wrong password three times, you will still start at the beginning of the world you were last in, but your items and powers may be different.

3. HOW TO PLAY

GATHERING INFORMATION IS VERY IMPORTANT!

Your mission is to bring peace to Arabia, but this will require more than just fighting. You must learn what to do and where to go. Always write down what the townspeople tell you, and when you enter a new town, be sure to speak to all of the people you meet.

BEFORE THE JOURNEY ... Be sure to go to a shop and buy some bread before you leave town, and always have your sword or magic rod in hand when you go. There are many monsters lurking outside the towns. You must be prepared or they will quickly defeat you.

USE MAGIC AGAINST THE MORE POWERFUL ENEMIES!

Your magical powers, if used wisely, can be far more effective than your rod or sword. Even if you are not a **MAGICIAN**, your magic powers are still very strong.

● PLAYER LEVEL

Every time you defeat an enemy, you will gain experience points. After gaining a certain number of experience points, your player level and strength will increase. As your player level increases, so will your Hit Points and Magic Points. In addition, your rod and sword will become more powerful, and you will learn new spells. The levels, magic points and hit points of your allies increase as yours do.

The powers of the **BOLTTOR** and **FLAMOLL** spells increase in three stages as your level increases. Also, as you progress the **CORBOCK** magic will change to **SHRINK**, then to **CARABA**.

In each chapter, you may progress only to a certain level. Once you reach that level, you will earn no more experience points until you enter the next chapter.

● Magic Points (M. P.) :

This is the amount of magic you have. It decreases whenever you use magic. If your Magic Points reach 0, you won't be able to use your magic spells. You can recover some Magic Points by using mashroob. To recover all of your Magic Points, stay in a hotel or stand on a magic star.

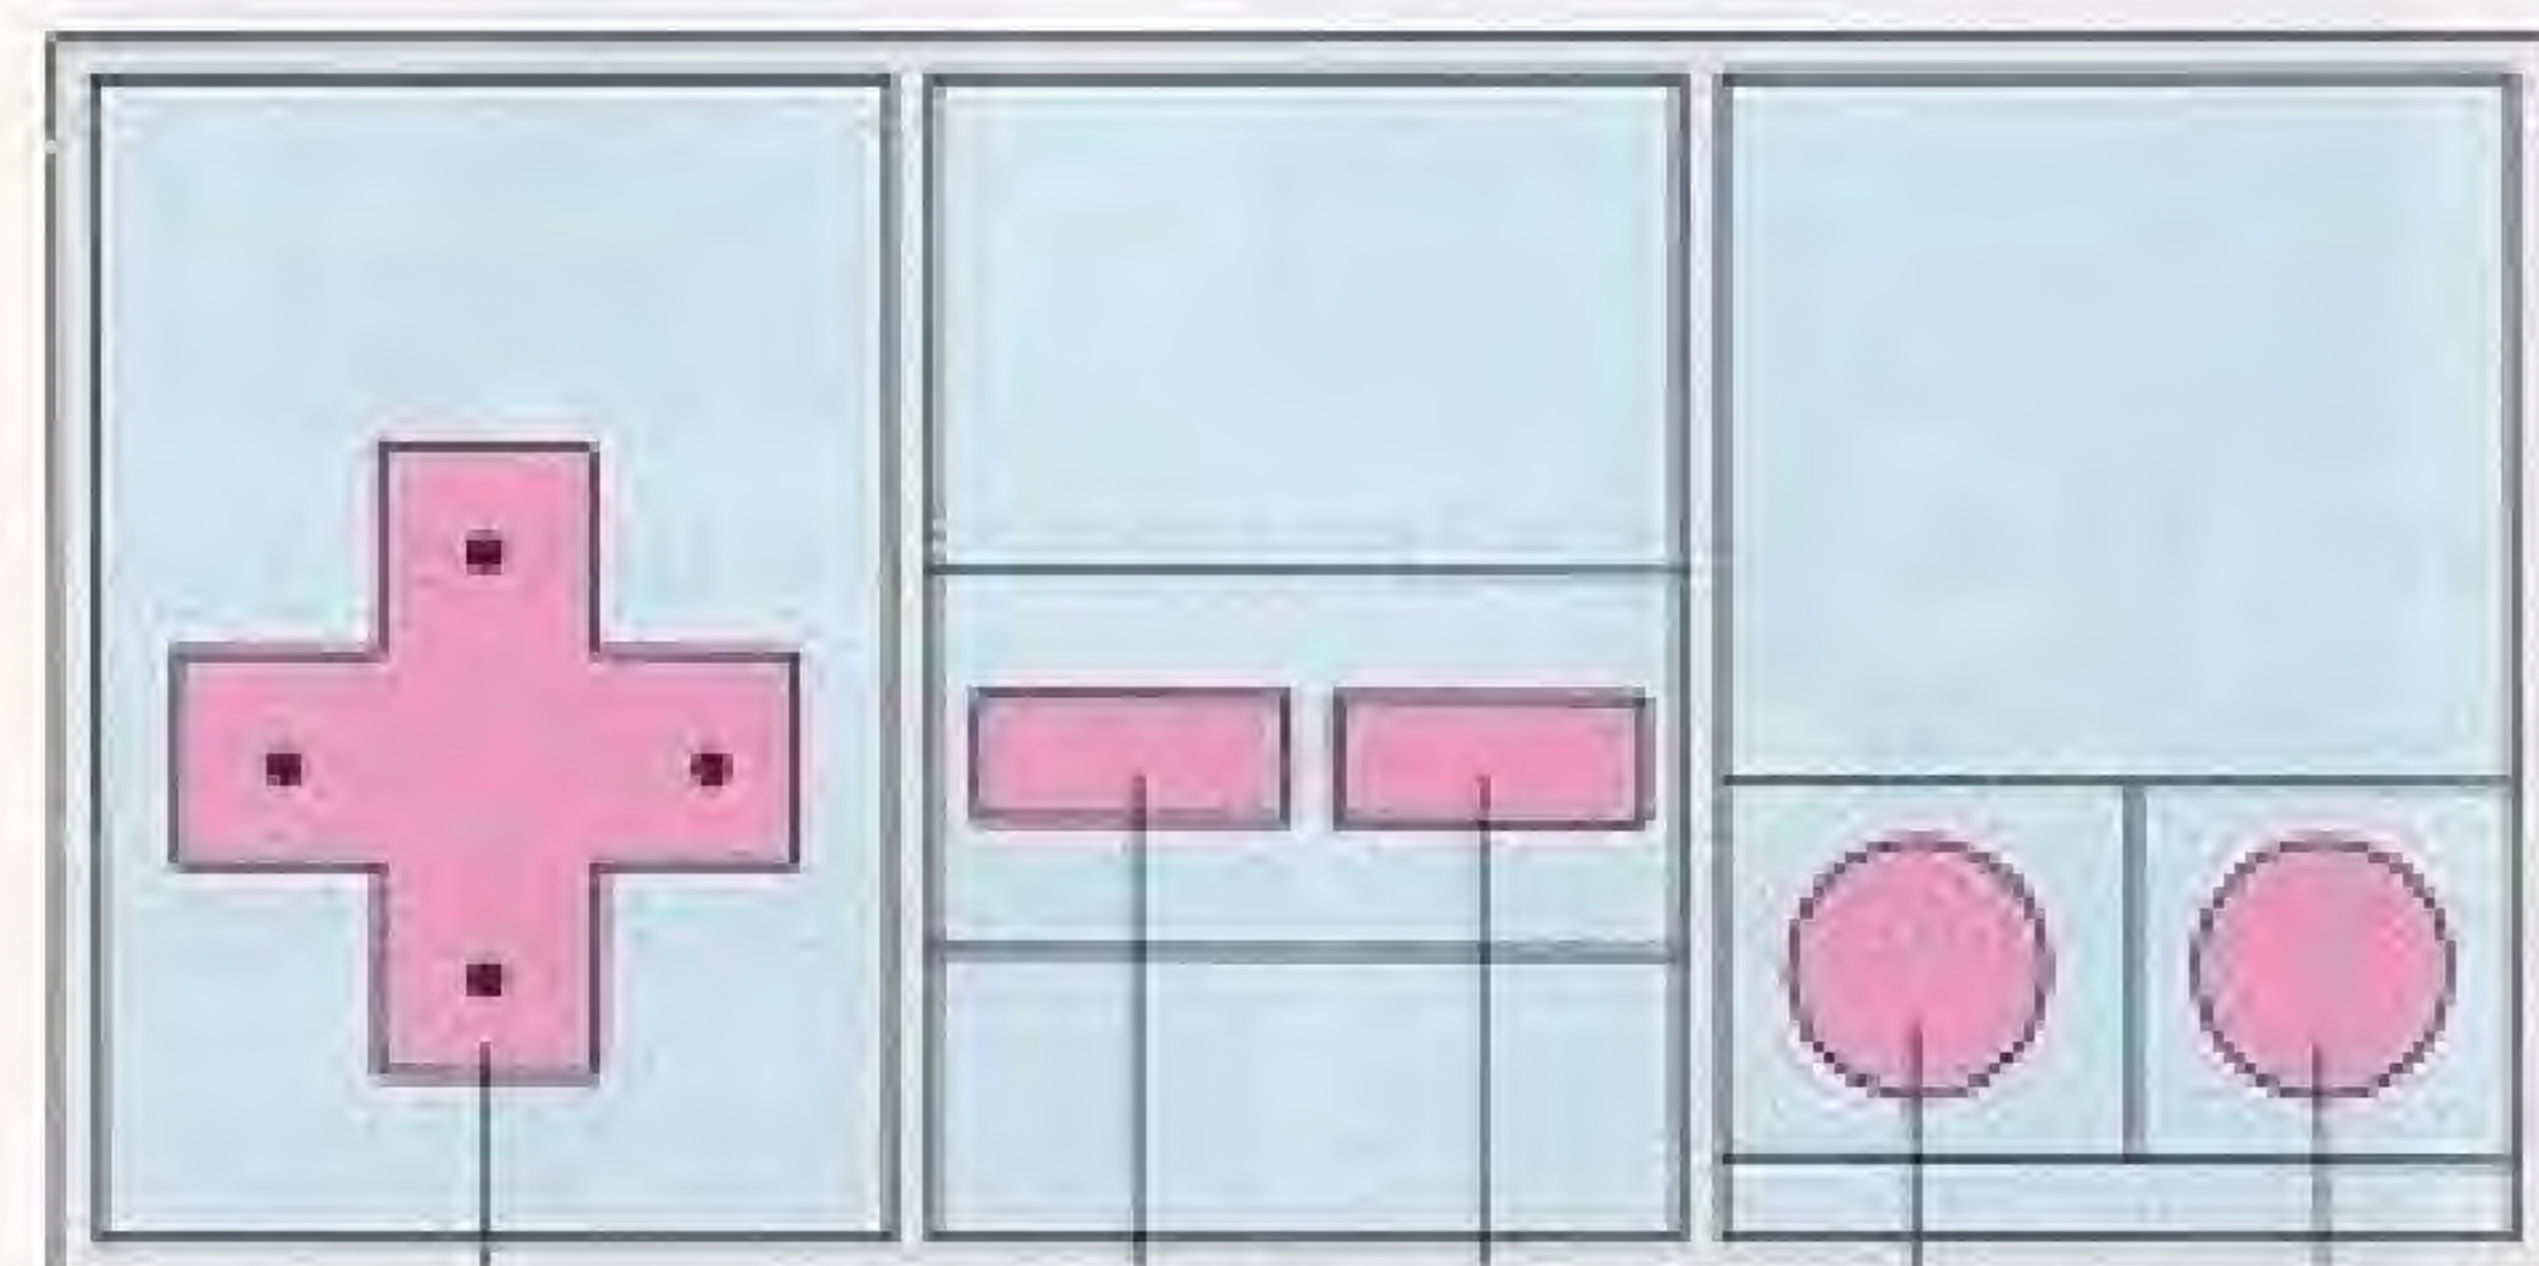

● Experience Points :

Gain experience points by defeating enemies. Upon reaching a certain number of points, your player level will increase.

○ After you select your allies, bread and mashroob will be distributed automatically.

○ If you want to change the distribution of the portions or serve more, select YES when you are asked. Then, select BREAD or MASHROOB, then move the cursor to the desired allies' bread or mashroob. Use the A button to increase the shares or the B button to decrease the shares.

If you make a formation, you will be able to use Combined Magic with your allies.

If you choose certain formations against certain groups of enemies, the Combined Magic will be the most effective. (see p. 33)

Also, if you choose the right formation, your party's defense power will be increased.

If you want to use Combined Magic, choose MAGIC when it is your turn to attack. The available magic, including the Combined Magic, will be displayed.

※ You can learn what formations are the most effective against enemies at the Magic University in each chapter. Be sure to learn about formations.

※ The troopers will not fight when you use the Combined Magic.
